Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-35 and 67-70, drawn to projecting open to buy inventory values by calculating open to buy values from the inventory budgets and the aggregated projected future inventory and reporting this open to buy value, classified in class 705, subclass 10.
 - II. Claims 36-63, drawn to prorating inventory budgets among items and reporting a comparison of the prorated budgets and projected future inventory, classified in class 705, subclass 7.
 - II. Claims 64-66, drawn to calculating lost sales for a group of items due to inadequacies in the projected future inventory, classified in class 705, subclass 11.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I, II, and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as projecting open to buy inventory values by calculating the values from the inventory budgets and the aggregated projected inventory (no prorating of budgets and no calculated lost sales). Invention II has the separate utility of prorating inventory budgets and generating a comparison chart of these budgets to projected future inventory (no calculation using inventory budgets and the aggregated projected inventory and no calculated lost sales). Invention III has separate utility such as calculating lost sales dues

to inadequacies in inventory (no prorating budgets and no calculation using inventory budgets and the aggregated projected inventory). See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Groups II or III, the search required for Group II is not required for Groups I or III, and the search required for Group III is not required for Groups I or II, restriction for examination purposes as indicated is proper.
